

Summer of Inspiration

PRODUCTS AND SERVICES CATALOG

SUMMER 2021

Winter/Early Spring is a popular time for summer program planning.

From professional development and curriculum planning to supply purchasing and equipment upgrades, there's a lot to consider. In this guide, you'll find top picks from NAA, our Advocate members and valued partners.

Afterschool professionals and programs play a critical role in keeping kids learning, safe and healthy during the summer months, too. Summer learning and day camp programs tap into kids' interests in subjects like STEM and the arts, can make learning academic content fun, build social-emotional skills, get kids physically active and provide nutritious meals. Use this guide—and the products and services in it—to create high-quality summer programs and a summer of inspiration!

SHORE BUDDIES EDUCATOR PACKAGE

Shore Buddies

Shore Buddies are the world's first stuffed animals made from 100% recycled plastic bottles. It takes 6 bottles to make 1x Shore Buddy. All Shore Buddies plays the authentic animal sound when pressed. Each character comes with a different story on ocean plastic pollution and gives tips how to keep plastics out of the Ocean. The educational children's book "Shore Buddies And the Plastic Ocean" has all 5 Shore Buddies in it and illustrates the harm single use plastic does to marine life in a language kids understand and speak.

W: <https://shore-buddies.com/pages/educator-package>

TERRA KIDS CONNECTORS

HABA USA

The "connectors" encourage children to get out in nature to explore, ideate and create! Using sticks found out in the woods, children use the hand drill to create a hole to fit the various connectors. Imagination is the only limit; children can create robots, animals, imaginary creatures using their creative thought process? Is an elbow joint needed here or is it a antenna spot? Idea booklet included in each of the 4 Terra Kids Connector sets. Ages 8+

SEL/YOUTH ENGAGEMENT

KINDHEARTED KIDS SOCIAL EMOTIONAL LEARNING PROGRAM

Two by Two Character Development

The Kindhearted Kids Program is an energetic, hands-on social emotional learning program where children care for a stuffed dog or cat as an avenue to teach Kindness, Respect, Responsibility, and Empathy. This five-week (or five-day) program has been capturing children's hearts since 2005! Easy-to-teach lessons and the inclusion of all necessary materials, as well as woven strands of other core subjects into each lesson, makes this an easy, yet memorable program for anyone to deliver.

SEL JOURNEYS EduMotion

When you take your students on virtual field trips with SEL Journeys, they'll explore new cultures, learn fun dances, and connect their journeys to Social Emotional Learning themes like diversity, empathy, and kindness. To start, participants choose a destination, then follow along to learn simple movements inspired by a dance from that country. By the end of the lesson, participants engage as "joymakers" and "peacemakers" as they dance together.

- Offer SEL-based multicultural dance lessons (no dance teacher required!)
- Plan daily or weekly SEL themes and host "journeys" to introduce the theme
- Invite parents for a "dance-along" party or student showcase

Special Offer/Discount: Sign up for a free "dance of the month" membership on edumotion.com. Be sure to ask about our "OST Starter Package," which includes a special discount for NAA members!

THE WALKING CLASSROOM

The Walking Classroom is a series of fun, standards-aligned educational podcasts that kids listen to while they walk. In addition to teaching core content topics (like language arts, science, social studies) the program supports social and emotion learning by weaving character values throughout podcast narratives. Values include things like caring, empathy, respect, perseverance, optimism and more. Podcasts also begin with a brief health message to build health literacy. Available on preloaded WalkKit audio devices or mobile app, the program offers a great screen-free resource for:

- In-school instruction with physical distancing.
- Remote learning—with or without internet access
- Hybrid learning

Special Offer/Discount: NAA Members save 10%. Use code NAASG10.

AFTERSCHOOL TECH TOOLKIT National AfterSchool Association

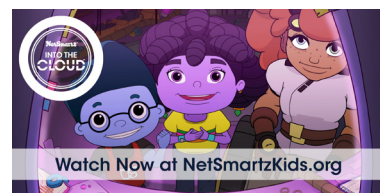

The Afterschool Tech Toolkit offers concrete action steps that empower afterschool professionals to incorporate digital learning into afterschool. Specific toolkit topics include creating a shared vision for digital learning, embedding technology in curriculum, addressing equity around technology access, and training and supporting staff to use technology. Through engaging learning modules focused on specific topics around digital learning and equity, educators complete learning tasks, review case studies and best practices, and begin to think through how to implement quality digital learning and technology into their programs.

W: <https://naaweb.org/afterschooltechtoolkit>

NETSMARTZ® INTO THE CLOUD ONLINE SAFETY PROGRAM National Center for Missing & Exploited Children

Prepare your students for safe adventures online with Into the Cloud, the new NetSmartz® web-series that takes kids on an exciting journey across the internet to learn about online safety and digital citizenship. Make Into the Cloud part of your program with activity guides, standards-based classroom activities, and a kid-safe website for independent exploration (www.NetsmartzKids.org). Extend the learning with detailed episode guides and a take-home letter for parents. Developed by the National Center for Missing & Exploited Children, Into the Cloud is a cutting-edge program that addresses the dangers to children online in a developmentally appropriate and empowering way for children 10 and younger. Visit our web site to access all program materials for free! Sign-up for our NetSmartz newsletter to receive updates on the program.

EXPERIENTIAL ACTIVITIES TO INTRODUCE IDENTITY, CULTURE, CLASS, GENDER AND INCLUSION

Be The Change Consulting

Support young people in their journey of exploring and understanding the world they live in today. In this curriculum we offer six thematic units:

- Facilitator Prep
- Identity
- Gender-LGBTQ
- Inclusion
- Race
- Class

Opening young people's minds to systemic forms of injustice transforms the ways in which they interact with others. Engaging youth in discussions around racism and systems of oppression can be challenging and scary. But it is also important. The activities in this box are designed to provide an engaging classroom experience for educators and youth alike, teaching important skills in building community and connections through exploring identity and values. Price: \$40/curriculum box.

Special Offer/Discount: 20% off orders of 10 curriculum boxes or more. Plus free shipping.

THE ACRES PROJECT

Maine Mathematics and Science Alliance (MMSA)

Afterschool Coaching for Reflective Educators in STEM - through Maine Mathematics and Science Alliance (MMSA) supports afterschool professionals as they engage youth in-person and/or virtually. Live interactive virtual professional development sessions offer the headspace for afterschool professionals to reflect on, practice and learn new skills. Sessions not only focus on skill development, but also on connections to resources and to others doing similar work. ACRES supports STEM PD year-round and has multiple offerings to help prepare for including STEM in summer programming.

W: <https://mmsa.org/projects/acres/>
E: acres@mmsa.org

LEGO® EDUCATION

LEGO® Education offers hands-on, playful STEAM learning experiences based on the LEGO® system of bricks - through multi-faceted solutions for students and their teachers in early learning, primary, and secondary education as well as through after-school programs and competitions. These solutions create an environment where active, collaborative learners build skills for their future and a lifelong love for learning whether it's in-person, virtual or a blend of both. For summer, our camp-style lesson plans are perfect for fostering a love of learning beyond the classroom. Students will be excited to stay engaged in these fun challenges for longer periods of time.

STEM GEMS

National AfterSchool Association

STEM Gems are short discovery-based experiences. They involve little or no materials and may be easily implemented by educators who are not STEM specialists. Each STEM Gem is designed to engage young people in active experiential learning. The activities begin by setting up connections to prior knowledge, then a hands on activity provides new concepts and the opportunity to design experiments to answer any questions the kids discover. Finally, a connection to a different scenario for the concept is provided to help cement and evaluate the learning.

THE AFTERSCHOOL GUIDE FOR MATH GAMES

National AfterSchool Association

The afterschool environment is a perfect setting for offering math enrichment experiences. Within the AfterSchool Guide for Math Games you will find games and activities that not only engage students in a broad range of math skill development, but also encourage physical activity and teamwork and cooperation.

THE AFTERSCHOOL GUIDE TO LANGUAGE & LITERACY GAMES

National AfterSchool Association

Promoting language and literacy has always been an important part of the afterschool setting. Inside the eBook you'll find games and activities that broaden literacy beyond traditional practices of reading and writing. You'll also find games that not only engage children's literacy skills, but encourage physical activity, science exploration and creativity!
